ABOUT ME

CSAI student at Korkyt Ata University. Focused on Full Stack Development, AI, and Machine Learning. Passionate about intelligent systems, automation, and cutting-edge tech. Fast learner, adaptable, and goal-driven. Striving to build impactful IT solutions with a professional team.

EDUCATION

Korkyt ata University

Bachelor's Degree in Cybersecurity

Sep 2024 - Aug 2028

Studying the basics of information security: system protection, ethical hacking, and risk assessment. Planning an exchange at SeoulTech, South Korea, in 2025 to deepen my cybersecurity knowledge.

Courses

Technological Entrepreneurship

Dec 2024 - Feb 2025

Completed a 180-hour course in tech entrepreneurship: innovation management, startup development, business models, investment strategies, financing, and risk assessment.

Self-taught

Fullstack development

Aug 2024 - Present

Independently studying full-stack development, mastering the basics of front-end and back-end. Developing simple web applications with a focus on UI design and basic server-side logic. Gaining hands-on experience with version control and deployment.
